

Flex-LAB™

Modular Facilities

OSEMI has a new approach for laboratory and clean room space that we call Flex-Lab™. This approach is based on years of experience in laboratory design across semiconductors, biotech, and flexible manufacturing. This prefabricated, modular, easily reconfigurable approach to facilities is perfect for meeting the rapidly changing needs of R&D, production labs, and manufacturing facilities.

OSEMI *Flex-LAB™* **Product Suite:**

- Rapidly Reconfigurable Clean Rooms
- Portable Microenvironments for Sample Prep
- Modular Electric Power Systems on movable frames including Advance UPS Subsystems
- Compact Efficient HVAC Environment Control
- Portable High Purity Water System
- Prefabricated House Vacuum Systems
- Liquid and Gas N2 Systems
- Clean Room Accessories

Advanced Equipment For A Better World

Advantages of *Flex-LAB™* **Environments:**

- Rapid Installation
- Easily reconfigurable
- Protects your investment in facilities
